

Datasheet

One software solution. One world of difference for your content.

Have you heard? There has been a quiet revolution in the way color documents are scanned and published on the Web. It is Document Express with DjVu®--a format that has long been preferred by universities and libraries, because it produces dramatically smaller files while preserving original quality. Leading companies around the world are now turning to Document Express including Northwest Airlines, Panasonic, Samsung, Sears, Komatsu, and others--and that's because Document Express with DjVu is truly in a class by itself.

Only Document Express empowers you to send scanned or electronic color documents on any platform, over any connection speed, with full confidence in the results. Images download quickly, pages retain true design fidelity, and viewers can access and use your content in ways that are impossible with PDF, TIFF, or JPEG.

Document Express with DjVu consistently delivers an excellent user experience, every time.

Features

Sample 400dpi color scan

About Document Express with DjVu

Document Express with DjVu (pronounced: déjà vu) uses a highly efficient document image compression methodology and file format. Scientists at AT&T Labs who first developed the DjVu format for color scanning, also found it vastly superior to Postscript or PDF formats for transmitting electronic files. Document Express with DjVu uses the most advanced document image segmentation ever developed. The document image segmentation technology enables the Document Express with DjVu format to have the highest image quality while keeping text separate to maintain the highest legibility possible. Document Express with DjVu will make a world of difference in the way your customers--or the world--view your content.

Amazingly Small File Sizes

Document Express with DjVu document images are the smallest in the industry, up to 1,000 times smaller than TIFF files, and typically anywhere from 5 to 100 times smaller than JPEGs or PDFs. Although PDF is widely used for printing, the DjVu format can leverage that investment to provide a web delivery that is faster, nimbler, and far more reliable than simply posting PDF files.

Features (continued)

“Document Express has strengthened our relationships and helped us create new sales. It has been a powerful tool and a crucial part of our success”

Susumu Takahashi,
General Manager, CSS-NET Business Division,
Komatsu

Document Express with DjVu is the industry-leading solution to create highly compressed, high quality files efficiently accessed over any network.

Breathtaking Image Quality

When it comes to Document Express with DjVu, quality is never compromised; the same segmentation technology that is behind those exceptionally small file sizes also guarantees high image quality and text readability.

Document Express with DjVu - The No Compromise Document Solution

Reduce Costs

Document Express with DjVu gives you compact, high quality document images while dramatically reducing your electronic document storage and bandwidth costs.

Save Time

Easily integrate Document Express with DjVu into your existing workflow and scan all your documents in color, eliminating the need for presorting and rescanning later.

Locate Important Information

With OCR support for over 100 languages, the text in your scanned documents is now searchable by keyword enabling you to retrieve just the documents you need.

Electronically Distribute Documents

A typical full-color letter size DjVu file at 300-dpi produces a lightweight 50-kilobyte file, allowing important documents to move swiftly across a network or the Internet. Free viewers are available for all common platforms enabling your customers to view pages exactly as they appear in the original document.

Support for all Common Platforms

Free DjVu document plug-ins and viewers are available for Windows, Macintosh, Sun/Solaris, Linux, various Unix flavors, and Windows CE. Please visit www.lizardtech.com for download instructions.

System Requirements

Minimum System Requirements:

200 MHz PC Processor
Microsoft Windows 95/98/2000/XP or NT 4.0 Service Pack 6
32MB RAM
DjVu Browser Plug-in
Internet Explorer 5.0 or later,
Netscape Navigator 4.x or later,
or Mozilla 1.3 or later

Recommended System Requirements:

400 MHz PC or SPARC Processor
Microsoft Windows 95/98/2000/XP or NT 4.0 Service Pack 6, or Red Hat Linux 6.x/7.1, or Solaris 2.6
128MB RAM
DjVu Browser Plug-in
Internet Explorer 5.0 or later,
Netscape Navigator 4.x or later,
or Mozilla 1.3 or later

Which Version Is Right For You?

Document Express with DjVu is available in two versions. A LizardTech representative will gladly work with you to determine which one best suits your needs. Contact us at 206.652.5211. You can also find your nearest Authorized Reseller at www.lizardtech.com

Document Express Professional Edition

For individual consumers, professionals or small businesses that need direct scanning into DjVu, OCR, creation of DjVu files from electronic documents and DjVu files editing capabilities directly from your desktop computer.

Document Express Enterprise Edition

Designed specifically for high volume scanning and for integration with capture and enterprise document management systems. Includes batch conversion capabilities, advanced conversion settings, watch folders, fine-grained control through command line and GUI applications, PDF and PostScript to DjVu conversion.
